

**A LITTLE FAREWELL TRIFLE TO WOozy
– A FELLOW G&S ENTHUSIAST –
WITH HUGE APOLOGIES TO
W. S. GILBERT**

Sorry I can't sing it to you in person but I'm conducting today in Tokyo, Japan.
(I've gone to considerable lengths to avoid performing this tongue-tripper!)

(Sung to the tune of "I Am the Very Model of a Modern Major-General")

You've been the very model of the Perfect Presser President;
You're loved by all your Board and every live Cathedral resident.

And, unlike some who grace this room, you're really very musical
(Which separates you from the few to whom that's all confusical).

You always speak in awe about "The Boss" and act extraneous
But I believe you grabbed the reins superbly Morris Duaneous.

You've led us for these many years so expertly and gleefully
And we'll look back upon your golden era so Suppleefully.

Yes, we'll look back upon your golden era so Suppleefully,
We'll look back upon your golden era so Suppleefully,
We'll look back upon your golden era so Supplee – Suppleefully.

Now as you Chair your final Board and all are waxing lyrical
I feel that I must add my oar with greeting panegyrical.

And so I leave you – as you part – encomium unhesitant:
You've shown yourself the model of the Perfect Presser President.

With great affection
Duane Montgomery
